Full-stack, front-end focused web developer looking to bring my 7 years of professional experience, passion for great UX, and positive collaborative attitude to bright minds and build smart solutions with the latest technologies.

Experience

Seismic Software - Chicago, IL

Senior Software Engineer I

Aug 2022 – Jun 2023

- Led a React-based browser extension for end-user enterprise app integrations:
 - Architected the communication between separate instances of the app.
 - Managed backlog, story grooming/prioritization and guided the team through the agile process.
- Consulted on the architecture and design for a system that allowed back-end developers to generate and deploy a fully functional front-end.
- Collaborated with business stakeholders from product and design teams.
- Mentored/Onboarded new developers to aid in their self-sufficiency.
- Led i18n localization effort with extensive vetting and design changes.

Software Engineer II

May 2018 – Aug 2022

- Created an integration between two proprietary systems to update enterprise document viewer.
- Contributed to full stack and architecture of a web-based video conferencing system, utilizing Ember.js, WebRTC, and OpenTok.
- Revamped legacy event-based system for writing to CRM, Salesforce and Dynamics, mediating stakeholder needs and system constraints.
- Took ownership of documentation during company acquisition and team shifting.

SAVO Group - Chicago, IL

Software Developer II

Mar 2018 – May 2018

- Managed deployment risk strategy with automated pipeline tests, Selenium for multiple browsers, staged environments, and easy rollback.
- Mentored high school interns from marginalized backgrounds to familiarize them with the workforce and bolster their growth in STEM.
- Thrived in a fail-fast, learn-quick environment, while keeping people positive along the way.

Software Developer I

Aug 2016 – Mar 2018

- Contributed to system that injected Ember.js web pages into a .NET monolith to replace pages individually.
- Adapted to working on 10+ year old codebases and the newest JavaScript frameworks in an Agile environment with high profile client negotiation.
- Took the initiative to write documentation for long undocumented info, including legacy codebase local setup.

Education

University of Illinois at Urbana-Champaign
B.S. in Computer Science • Minor in Art and Design

May 2012 – Mar 2016

Personal Projects

Developer Portfolio Website

Apr 2025 – Present

- Designed and wrote kevingomez.dev, my developer portfolio page, to showcase my resume online and personal software projects.
- Written with React.js, TypeScript, Vite, animated with Anime.js and Framer Motion, and deployed with Vercel.

Movie Database

Apr 2025

- Deployed a simple movie search page at trending-movies-db.vercel.app that queries “The Movie Database API” to display movies by popularity, search movies, and record search queries to an Appwrite database.
- Written with React.js, Vite, using Appwrite, and deployed with Vercel.

Acting Website

Nov 2020 – Present

- Designed and wrote kevinkgomez.com, my personal acting portfolio page, for my voice acting work.
- Written with React.js, Next.js, Tailwind, deployed with Vercel.

Technologies

React.js, TypeScript, Next.js, Ember.js, HTML5, CSS / SCSS, Tailwind, Redux, Vercel, Azure, AWS, .NET, C#, Node.js, REST APIs, SQL, MongoDB, Browser Extensions, Framer Motion, Anime.js, Selenium
